

FINGERPRINT ENROLLMENT READER

WASP

Convenient USB fingerprint reader that enrolls fingerprints directly to the Mi-Time Software. Once you have enrolled all employees to the Mi-Time Software via the WASP, you may then upload all fingerprints to the rest of the Amatec readers in the field.

USB connectivity for hassle-free connection

Convenient staff enrollment

Fingerprint scan for accurate identification

Mi-time software compatible

Data is compatible with all other Amatec devices

Secure solution to staff management
